About Us

Tribocor Technologies Private Limite was founded in 2002 in heritage city of Mysore, Karnataka, India. The manufacturing plant has all the required facilities and everything is done under one roof. We believe in PEOPLE PARTNERSHIP PROGRESS approach and our objective is "Working Towards Sustainable Solutions." (Our quality policy) From its inception, TriboCor has progressed and meeting every challenge effectively with the customer in mind, we have grown from strength-to-strength with every experience. A technology and customer-driven company, TriboCor has helped customers achieve higher levels of satisfaction by providing solutions that enhance product quality. The company offers a wide range of products which include Specialty Lubricants, Maintenance and Corrosion protection products. Our main thrust is on manufacturing specialty aerosols having maximum active material with least propellant gas resulting into economical and high quality product.

TriboCor strive to develop more and more products to keep up with growing and varied needs of industry. Company is flexible, accommodating and provides attention to the individual customer. TriboCor has presence in most of the industrial cities in India through channel partners. Mr. N. Krishnamurthy, Director, M/s. Carl Bechem Lubricants (I) Pvt. Ltd. Bangalore, a well known name in the field of Lubrication, is the advisor of the company for marketing the products. TriboCor is into contract manufacturing of aerosols,...
